

OBJECTIVE

To transition 23 years of cybersecurity compliance skills to a position in the growing cannabis industry where my creativity, problem-solving skills, and experience in regulatory compliance can be used to guide existing cannabis license holders and applicants for cannabis licenses in achieving their business objectives.

Stacy Rosberg

COMPLIANCE ANALYST

I am passionate about ensuring compliance with regulatory requirements, analyzing and improving processes, and managing risk.

EXPERIENCE

CYBERSECURITY TECHNICAL ANALYST RAYTHEON TECH.
May 2019 - April 2025

- Assisted with implementing federal requirements that balanced cost, reputation, and compliance risks to the company.
- Reviewed, documented, and published internal team processes to determine areas for improvement and enhance services provided.
- Oversaw compliance efforts that ensured the company's ability to safeguard, handle, and disseminate sensitive information.
- Reviewed and reported impacts of new and modified government publications affecting the company's compliance landscape.

CYBERSECURITY ENGINEER L3 POWER SYSTEMS
May 2018 – May 2019

- Oversaw compliance updates for approximately seven programs that managed mission critical systems.
- Drafted proposals on behalf of the company that generated approximately \$400 million of revenue.
- Generated project schedules for quarterly compliance reviews that included testing, documenting operational impacts, and applying appropriate countermeasures in a timely manner.
- Provided training to approximately 40 engineers and program managers that discussed implementing compliance requirements using the Risk Management Framework (RMF).

CYBERSECURITY POLICY ANALYST BLACKBIRD TECH., INC.

January 2016 – May 2018

- Supervised a team of seven technical writers/policy analysts responsible for producing policies and procedures in accordance with federal guidelines, international standards, and private industry best practices.
- Provided guidance and support answering compliance related questions associated with federal laws and regulations.
- Designed a document database for capturing the similarities between the various compliance frameworks implemented.

CYBERSECURITY ANALYST DISYS

January 2015 - December 2015

- Performed periodic compliance reviews for five platforms to ensure they were configured to meet minimum security baselines and standards.
- Authored, reviewed and updated job aids detailing instructions for completing daily compliance activities.
- Performed trend analysis to identify persistent issues and drafted remediation strategies.

CYBERSECURITY ANALYST/ENGINEER SRA INTERNATIONAL

May 2011 - January 2015

- Performed periodic compliance self-assessments using government and industry approved tools, and generated and enforced Plan of Actions and Milestones (POA&Ms) for identified risk(s) in accordance with Federal guidelines.
- Developed and updated standard operating procedures (SOP) and policies for performing risk management, and continuous compliance.

INFORMATION SYSTEMS SECURITY ENGINEER RAYTHEON

March 2008 – May 2011

- Authored, reviewed and updated compliance paperwork for 65 federal networks.
- Revised local IA policies, procedures, and forms to meet regulatory requirements.

INFORMATION SYSTEMS SECURITY OFFICER HARRIS CORP.

June 2006 – March 2008

- Reviewed, updated, and managed compliance for 34 federal networks contributing to the agency's ability to attain a 90% system approval rate.
- Managed a team of 15 personnel responsible for reviewing, maintaining, and providing training to approximately 7000 employees on compliance requirements.
- Provided monthly Quality Assurance Surveillance Plan (QASP) and Program Management Review (PMR) reports.
